

M-Comp A/S Has moved

M-Comp A/S has moved to new locations at Kometvej 8D in Horsens.

As part of a very positive development, M-Comp A/S moves to new premises at Kometvej 8D in Horsens. The premises are the optimal solution for our company's activities going forward in our expansion, and to support our success.

M-Comp A/S is experiencing great success with our food terminals, where we have become supplier to the largest companies in the food industry. We have great experience in this area, specialized employees and suppliers who are ready to develop and produce on our customers demand. Stability and performance are key factors in the food processing industry, and our terminals are developed to support the factories to archive these key factors. We provide all the certifications which terminals for these particular environments requires. Kometvej in Horsens provides the optimal production environment to expand this business area even further.

In Advanced components we also are at full speed. Since 2006 M-Comp A/S has delivered Displays and embedded solutions to many different production environments. After many years in this advanced components market, M-Comp A/S offers all our customers a fast track to market, with well-established suppliers and partners, who all are a very big part of our success. It requires modern logistic conditions and easy access, which we also get at Kometvej in Horsens.

In the Transport area many exciting projects are ongoing and coming in as well, and M-Comp A/S is very successful with our Vehicle HUB, which is certified against ITxTP standards. It can be included in all contexts, where a company needs to communicate with all kinds of vehicles: busses, renovation, transportation of all kinds and many, many other places. We have developed a vehicle gateway with built-in GNSS / 4G Modem / Wifi, which is able to collect all the information from the vehicle and send them to IP level, making them available to stakeholders in terms of planning, service, monitoring etc. We also offer solutions for infotainment as for example SMART-City concepts ,buses, hotels etc.. We design and produce on demand. In our new premises, our development department gets more space and thus even more opportunity to initiate more projects.

There is no doubt that M-Comp A/S is embarking on a very exciting period in the company's history, and the new premises at Kometvej in Horsens are ready to support that development.

We welcome customers, suppliers and partners at Kometvej 8D in Horsens.
